

Once you have been admitted you will see something similar to the two screens below. The top screen is a basic audio meeting, with no videos. The second screen shows the presenter has uploaded a powerpoint to your meeting, there are various options for presentation, so this may differ slightly.

It is recommended you have a webcam for meetings, however it is not a requirement. You do however need a microphone and speakers.

For more information please contact the IT Helpdesk on 01209 616111 or ext 3111
