THE
SPACE

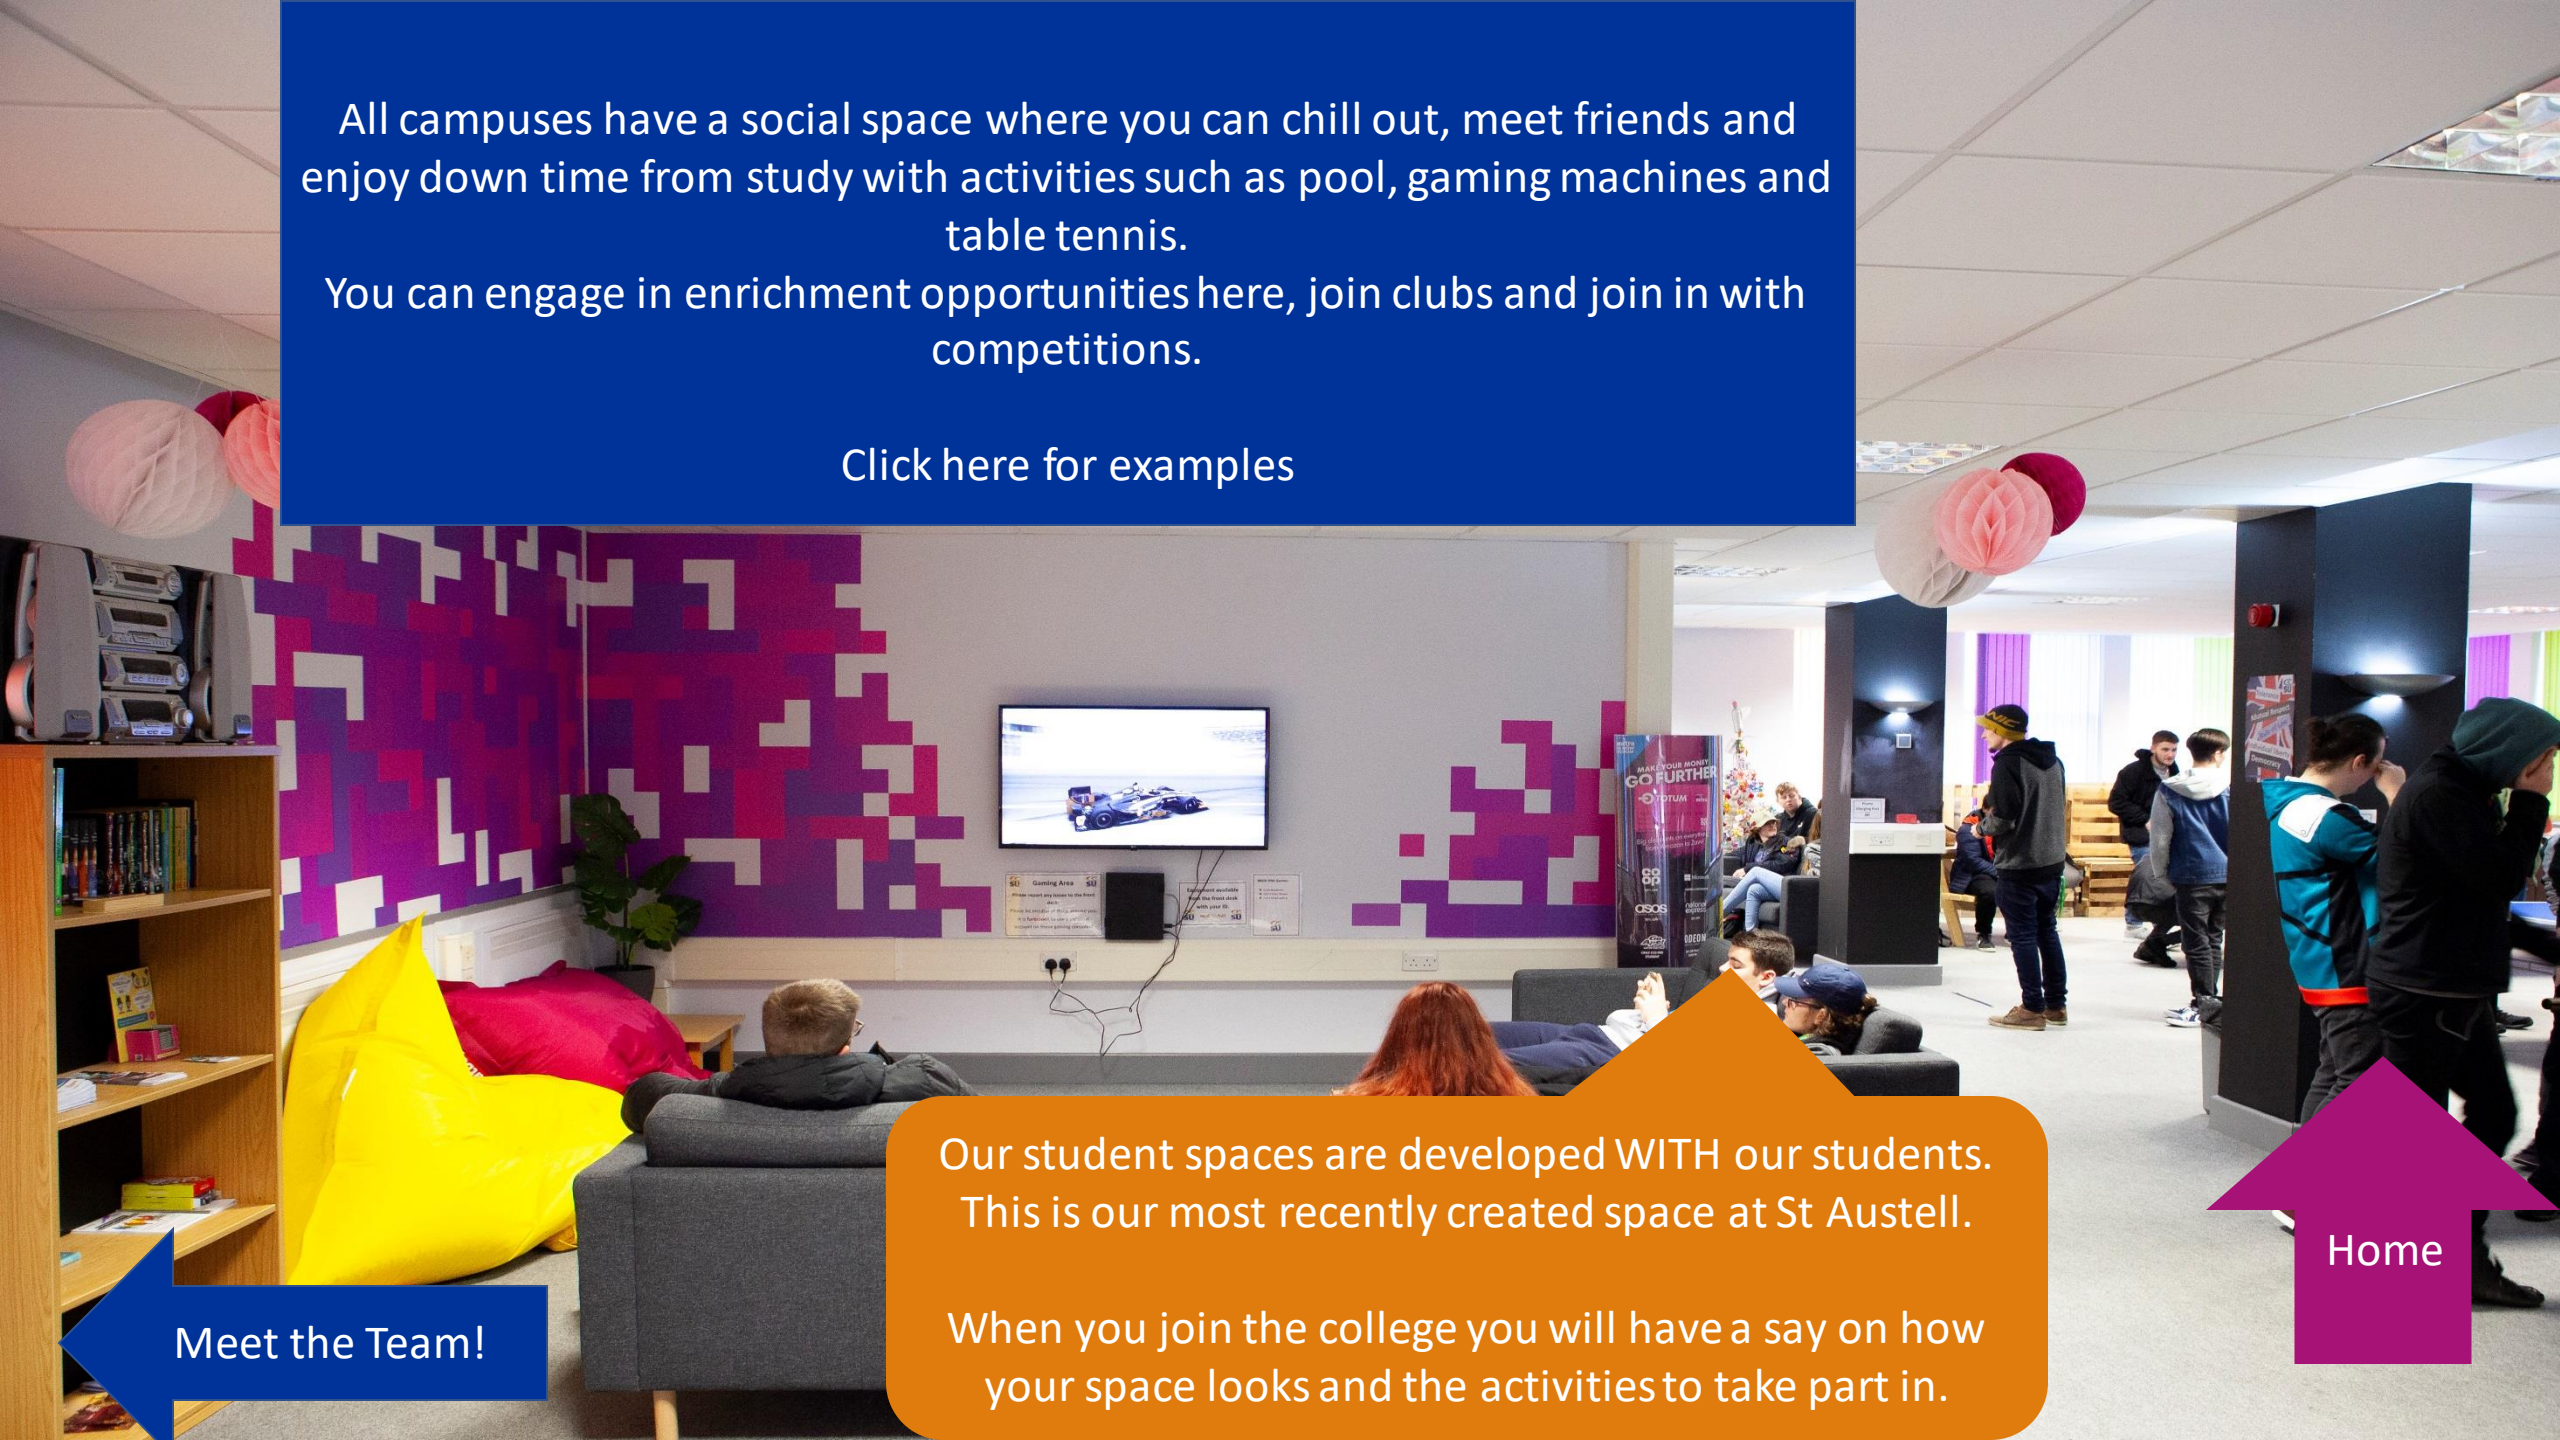

Enrichment

All campuses have a social space where you can chill out, meet friends and enjoy down time from study with activities such as pool, gaming machines and table tennis.

You can engage in enrichment opportunities here, join clubs and join in with competitions.

[Click here for examples](#)

Our student spaces are developed WITH our students.
This is our most recently created space at St Austell.

When you join the college you will have a say on how
your space looks and the activities to take part in.

[Meet the Team!](#)

Enrichment is an important part of college life to develop your softer skills, help you feel part of the wider community and ensure you are supported in personal development, health, wellbeing and signposted to agencies you may need along the way.

We work closely with lots of agencies to be able to support you with this.

Listening to our learners and getting their feedback is really important to Cornwall College. We collect this through the Student Union and surveys. This means that you can have your say in all aspects of college life.

We also ask for Course Reps where you can be the voice of your course group. This has great benefits including:

- Have a direct input into your campus
- Take part in teambuilding and training activities
- Gain confidence and life skills
- It looks great on your CV and helps you to stand out from the crowd and make a difference
