

# Welcome to Land and Environment Level 1

We are looking forward to you joining us in the Autumn. You may have studied this subject already or this might be completely new to you. Whatever your starting point, we are ready to support you with your learning.

Agriculture is going through an exciting time at the moment, a time of opportunities and challenges, but most importantly we are proud to be supporting the training of the next generation of farmer, supporting British Agriculture.

In the Autumn of 2020 the college dairy herd moved to the Future Farm, the new dairy unit that is packed full of new technology; a chance for you to learn from the very best and work alongside industry partners and employers.

The college farm also has sheep, and a range of different crops that are grown. As you progress you will get the chance to go on study trips, visit farms in the South West, sometimes nationally and for some the chance to travel abroad as part of a study programme.

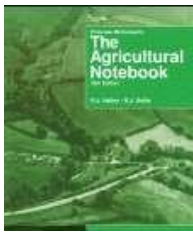

You will find a range of resources below to help you prepare for your course. Keep notes about what you have found out or learnt to support your learning later on.

We are really looking forward to meeting you and welcoming you to Duchy College.
